Whew! The suit is finally fashionable again, and if your closet isn't stocked with the perfect black pantsuit, now is the time to shop. If, on the other hand, you've been a devoted wearer—one who could never turn her back on the suit's flattering lines, versatility and wearability, no matter what fashion folks say—then you've most likely got your basics covered. So take a deep breath, because now you have options. Bright colors, patterns, unusual fabric mixes and details like fringe trim, cutouts and buckles take the simple suit (whether for day or night) far from its conservative roots. For more super suit looks, visit [chicsimple.com](http://chicsimple.com).
